### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12/11/2006 has been entered.

### ***Election/Restrictions***

2. Newly submitted claims 9-16 are directed to an invention that is independent or distinct from the invention originally claimed in claim 7 for the following reasons:

Claim 7 and claims 9-16 are related as combination (claim 7) and subcombination (claims 9-16). Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed in claim 7 does not require the particulars of the subcombination as claimed in claims 9-16 because claim 1 does not require "the unidirectional bearing constrains the handle to rotate in a first direction of rotation relative to the shaft", and "rotating the tuning rod and shaft in a second direction of

rotation opposite the first direction of rotation by rotating the handle of the drum key in the second direction". The subcombination as claimed in claims 9-16 has separate utility such as providing a unidirectional bearing "wherein the unidirectional bearing constrains the handle to rotate in a first direction of rotation relative to the shaft".

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 9-16 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Allowable Subject Matter***

3. Claim 7 is allowed.

### ***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

Please see Office Action dated 01/12/2006 for reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
